I'm a highly driven student of computer science with a solid academic background (8.0 CGPA) looking for an internship in software development or cybersecurity. competent in the fundamentals of Full Stack development and developing in web application security. In order to close the knowledge gap between academic theory and practical application, I am a lifelong learner who is presently pursuing industry-recognized certifications. eager to expand my technical toolkit and contribute to a fast-paced team.

EDUCATION

BACHELOR OF TECHNOLOGY, MAJOR IN COMPUTER SCIENCE AND ENGINEERING

MNRCET AFFILIATED TO JNTUH

SEPT 2023 - JUNE 2027

- Secretary – Engineers English Club
 - CGPA 8.1
-

PROJECTS

- **BLOOD BANK MANAGEMENT SYSTEM**

Basic idea born from a problem statement – Remote location emergency issues, developed a basic website based on assumption – [Github link](#)

- **MORPHEOUS PILL WEBSITE**

A Fun website Built out of curiosity and learning Html and Css – [Github link](#)

- **TRUTH TELLER**

Currently working on this project

Currently Learning more things and exploring with learning will build more projects and make them better over time looking forward to grow in various fields and evolve over time continuously

SKILLS

- | | |
|------------------------------|-----------------------------------|
| • Networking | • Operating Systems |
| • HTML & CSS | • Git, Github |
| • AI (LLM & Rag) , Prompting | • Data Structures Algorithm (DSA) |
| • Python, C++ | • Fluency in English |
-

CERTIFICATIONS
